*Minister for Health & S. W.,
Government of West Pakistan
Camp Karachi.
January 26, 1967.*

Message

I am glad to know about the annual dinner of the Dow Graduate Association. During my recent visit to the Dow Medical College, Karachi I found that a lot of improvements have taken place in the institution. The College has rendered a great service to the residents of Karachi and I am sure that the doctors who go out of this institution will uphold its tradition of selfless service to the people.

(Zahida Khaliq-uz zaman)
Minister for Health & Social Welfare,
West Pakistan.

Our Guest of Honour

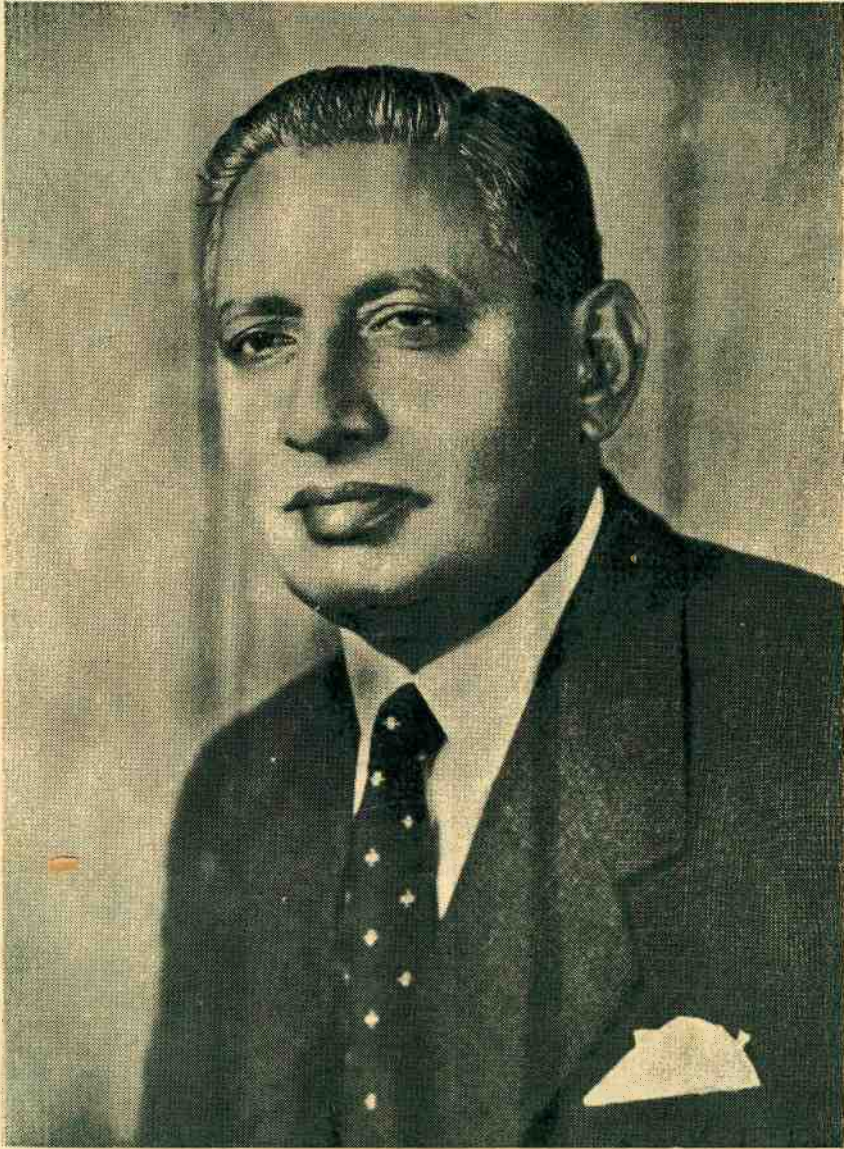

Professr Miss S. A. Siddiki

M.B.B.S., D.G.O. (Bombay), M.R.C.O.G. (Lond) F.R.C.O.G. (Lond)

Professor Miss S.A. Siddiki has retired recently from the chair of Obstetric and Gynaecology Dow Medical College Karachi. She joined the Civil Hospital before partition in 1945. In 1946 when Dow Medical College was established she was appointed as Assistant Professor of Obstetric & Gynaecology. The Obstetric Department was created for the first time under her, and it was under her able guidance that the department has obtained present status. She was made Professor of Obstetric & Gynaecology in 1952. She was member of Academic Council of University of Karachi till her retirement. She is very popular amongst her students.

Our Guest of Honour

MAJOR S. A. HASAN I. M. S.
M. R. C. P., F. R. C. P. (Lond) F. C. P. S.

Professor Major Hasan joined the Dow Medical College in May 1947 just before the establishment of Pakistan. He had the opportunity of teaching first clinical batch. He has been examiner in medicine to the various universities in Pakistan since 1947. Professor Hasan is a founder member of the College of physicians and Surgeons of Pakistan. He was delegate from Pakistan in the second Antibiotic Symposium at Washington in 1950. His hobbies are study and sports.

Maj. Hasan is liked by all his ex-students for his modesty and simplicity.

Jest's For You

It was past midnight when the telephone rang in the veterinarian's home. "Are you a dog doctor?" a voice asked.

"Yes", replied the doctor.

"If I come over will you bark for me?"

* * *

An actress, who had been bitten by a dog was admitted in the hospital where the doctor advised to write her last wishes as she would likely succumb to hydrophobia

"You can write your will?" doctor said.

"Will? I want to write the name of those whom I am going to bite." replied she.

* * *

"Doctor", said a patient, "I am feeling much better now, and I want you let me have your bill."

"Nonsense, Sir," said the physician, "do be calm, you are not strong enough for that yet!"

* * *

"I know that if the operation is not successful I shall die. Dr. Brown please tell me how confident are you of success."

"Sure, I'll tell you what I'll do if it's not a success. I'll let you operate on me."

* * *

A certain dignitary was visiting the mental hospital and asked one of the inmates why he was there.

"It's because I prefer shoes to chappals," was the reply.

"But thousands of people like that," said the dignitary, "I do myself prefer shoes to chappals."

"Yes, I know that," replied the inmate, "But how do you like them fried or boiled?"

An entirely new antibiotic!

CEPORAN

Trade Mark

- Truly broad spectrum
- Really bactericidal
- Highly active against penicillin-resistant staphylococci

Ceporan is Glaxo cephaloridine, a truly broad-spectrum, intensely bactericidal and altogether new antibiotic developed through many years of research.

Ceporan rapidly kills a wide range of gram-positive and gram-negative bacteria including those resistant to penicillin and other antibiotics. It is notably free from toxic effects and can be used to treat patients allergic to penicillin.

This remarkable new antibiotic is now available to the medical profession in Pakistan, providing a powerful attack in systemic and local infections. Ceporan is highly active against the pathogens commonly found in the urinary and respiratory tracts and is also the antibiotic of choice in mixed infections.

CEPORAN

Each vial contains 500 mg cephaloridine
